Digital Twin Partners

Strongest Partner on the Cloud Native Journey

CLOUD

MSA

Data Visualization

Company Overview

Enterprise only MSA(Micro Service Architecture) specialized company,
enterprise-only intelligent integrated solutions,
Container cloud solutions, and Big Data visualization technology expert
company
provide industry cloud-native services, including media solutions and industrial
solutions

- **Company Name** KBSYS Inc
- **CEO** Kee-Baek, Kim
- **Date of establishment** Jan 14th 2015
- **The number of employees** 68 / Jan 2022 Present
- **Address** 401, Daeryung Post Tower 1st.,
288 Digital-ro, Guro-gu,
Seoul, Republic of Korea
- **Tel** 02.2039.0100
- **Fax** 02.2039.0101
- **Website** <http://www.kb-sys.co.kr>

Comprehensive service technology for all customers

KBSYS provide optimized services to various customers and effort to communication
We also strive to provide the best possibilities and satisfaction through maximizing individual abilities

MSA Automation Solution
for Cloud Native Application

01 Container Cloud

It is a group of Container Platform experts ranging from Kubernetes to Mesos Architecture. You can receive the best service from 2017 to the present in the early days of Korea

Construction cases: SK hynix, 우리은행, Magnachip, K* KEY FOUNDRY, Jeda, ASTA

02 Enterprise Cloud Native Application

Cloud native applications based on MSA (Micro Service Architecture) is built in 2017 provide an optimal SaaS environment. In particular, BIZMICRO is an internationally certified MSA-based enterprise software that has been certified by Kubernetes

Main function: Cloud Enterprise Portal, Cloud Wiki Platform, Cloud Team Work, Cloud BigData Work

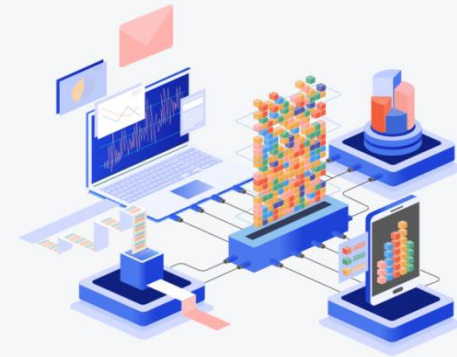

03 AI Platform

It is a Data Governance Platform for the development, learning, and operation distribution of artificial intelligence models utilizing Open Source

Construction cases: 우리은행

Main function: Data Governance - Model Workflow, Pipeline, Model Auto ML

04 DevOps Platform

To facilitate difficult MSA implementation, we provide the Development Pipeline

Construction cases: SK hynix, 우리은행, Magnachip, K* KEY FOUNDRY

Cloud Native Experts

Container Cloud Enterprise Service

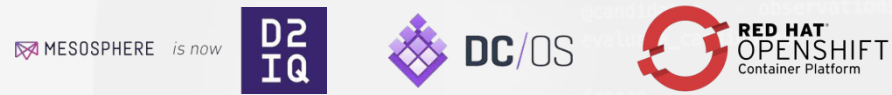

- Kubernetes Certified Possess an authentication platform(Acquired in November 2020)
Software conformance(Certified Kubernetes)
Cloud Native Computing Foundation(cncf.io)
- CNCF Authentication
Registered as a professional Kubernetes technical support company
- Kubernetes Certified Service Provider (KCSP) Cloud Native Computing Foundation (cncf.io)

Possess 7 International Accredited Cloud Experts

classification	The number of consultants	Holding Licence
Principal Consultant	1	
Senior Consultant	2	CKA
Junior Consultant	1	CKA,RHCSA
Consultant	3	CKA,RHCSA

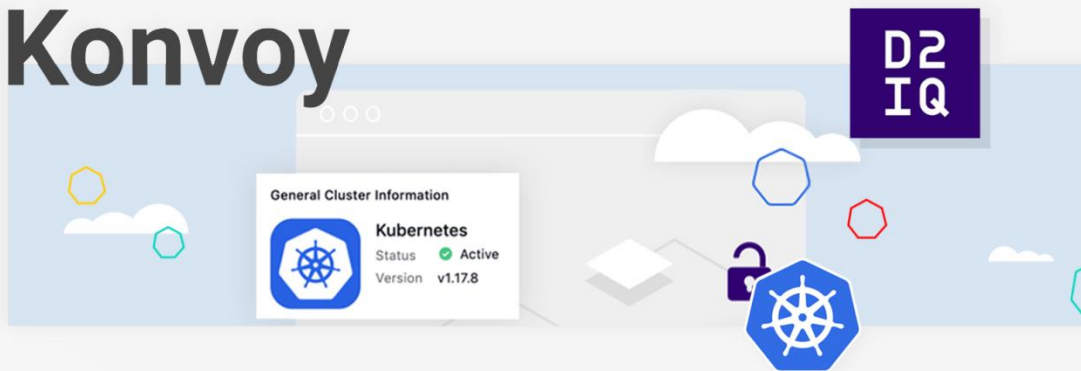

Global Solution Partner Status

Container Cloud Enterprise Solution - Konvoy

Enterprise-only Kubernetes Cloud native environment solution

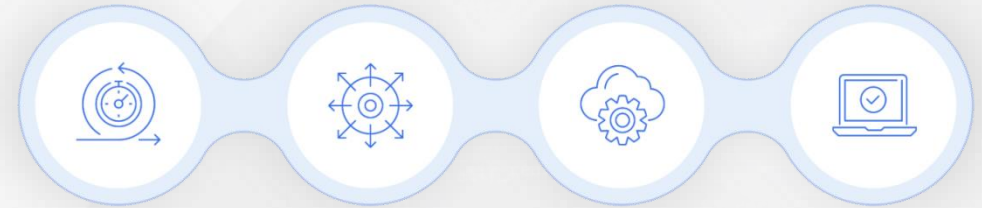

Konvoy

Enterprise-only Kubernetes cloud native environment solution Konvoy provides an easy and fast cloud experience for enterprises to get right into production.

Integrated services, including monitoring, logging, and disaster recovery, enable easy docker management, unified development, operations (DevOps), and enable all of the key features needed for full Kubernetes cluster delivery and deployment in one installation.

Easy and Fast at work

Reduce distribution time Streamline production Automation Continuous UX

Operate through declarations instead without thousands of code inputs to ensure fast market launch.

Support for integrated Universal Controllers eliminates the need for direct development.

Provides full lifecycle patterning and automation, including version upgrades, backups, and restores

Build a user-centered environment with ongoing APIs throughout the operation.

Container Cloud Enterprise Solution – DC/OS

D21Q Official Reseller

DC/OS

From the Docker Orchestration Container Service based on Mesos to the Data Agile Platform, experience DC/OS, which is now an OpenSource, as an Enterprise service.

Edge& Hybrid Cloud

Security features not guaranteed by Open Source

- Personalization service management
- functionManage external account links
- Manage a various of services, including CI/CD

Real-time resource management capabilities

- classified by Node- state management
- Network and powerful security management

Provides powerful dashboards

- Provides CPU, Memory, and Disk Quota
- Provide Service Status
- Provide Task Count
- Provide Component Status

User-centric system management

- Intuitive cluster component management
- Easy Organization and Setup Management Wizard

The best expert of Docker Orchestration

- Perfectly compatible with Kubernetes
- Provide Kubernetes' Enterprise Services
- Enterprise Solutions Based on Mesos

Optimal Hybrid Platform

- Provide Datacenter or Cloud Operating Environments
- Advanced Ecosystem provide for platform services
- Provide flexible container and data management systems

Expert in distributed processing systems

- High-efficiency productivity in cloud environments
- Services to oversee hands-on and professional
- areas Leading Micro-Service-Oriented Platform

Easy Service and Batch Management

- Service Registration and Deployment Management Wizard
- Provides powerful Batch Job management

Red Hat OpenShift is a leading enterprise-class Kubernetes platform built for an open hybrid cloud strategy.

With automated full-stack operations, consistent experience across all environments, and self-service provisioning for developers, you can develop your ideas more efficiently in development and production.

It can be used as a fully managed cloud service in leading public clouds or as a self-managed software product in organizations that need more customization.

Features and Benefits

Deliver cloud-like experiences

Increase security by automating lifecycle management.
Customized operating solutions, easy-to-manage cluster operations and applications

Enterprise Kubernetes

Red Hat OpenShift is a security-driven Kubernetes-enabled platform, including the Red Hat Enterprise Linux foundation.
Provides expert training and consulting services

Red Hat Marketplace

Provides agile support, efficient billing and contracting practices, simplified governance, and single dashboard-based visibility across all clouds and on-premises

Running VMs on Red Hat OpenShift

OpenShift Virtualization is a feature where Red Hat OpenShift packages each virtual machine in a special container

On Demand Application Stack

Develop applications using the languages and tools you want and deploy them through container images

Code and Push

Easy deployment by clicking on buttons or entering git push commands to mitigate multiple system management challenges associated with deploying and deploying containerized applications

Streamline support

Red Hat OpenShift standardizes developer workflows and supports multiplexed environments
Achieve continuous integration, including automated release management

The Technique of Main Business

Expert of Only Enterprise Micro Service Architecture

42  
43
```

Builder and portal platforms based on Micro Service

BizMicro aims to provide "intelligent information curation" services based on "communication" and "collaboration" in cloud environments.

Product Name

 **BIZMICRO** <http://www.bizmicro.co.kr>

MSA-based easy and flexible architecture: Applies MSA architecture that is suitable for large-scale services and is module-specific for easy distribution.

Flexible scalability of 3rd Party Solutions: Provides alignment with J2EE-based 3rd Party Solutions (APM, CI/CD)

Optimized productivity for Custom-builds: Provides optimized Code Style, Debugging, and System Error Logging

Provides essential functions for cloud environments: Provides a Docker Image environment that can be applied to various Docker environments such as MESOS and KUBERNETES

Fully CNCF Certified Kubernetes Support Platform (<https://www.cncf.io/certification/software-conformance/>)

Woori Bank, SK Hynix, Magnachip, CJ Korea Express, KeyFoundry Proven MSA Framework

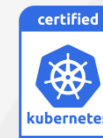

Manufacturer

Service Builder, Microservice Portal Builder with App Store Features
Oauth-based integration rights / authentication / common capabilities provision.

Provides cloud-based micro-deployment and file management
Support for DevOps environments and CI/CD pipelines, service monitoring, API specifications, etc.

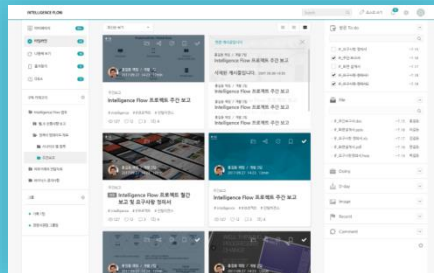

Obtained CNCF Certified Kubernetes Certification

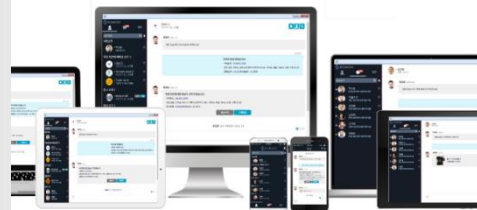

Project name	Date of supply	Ordering organization	Business contents
Construction of Shinhan Financial Investment Data Analysis Platform	2021	Shinhan Financial Investment	Data platform portal framework
Woori Bank's AI Service hub construction	2020	Woori Bank	Data Analysis Services and Cloud Portal Framework
Key Foundry IT system construction SW	2020	Key Foundry semiconductor	building an integrated business platform
construction of sk Hynix's information workplace	2019	SK Hynix	building an integrated business platform
Magnachip semiconductor Legacy System Construction of System Migration by Discontinuation of OSDB	2018	Magnachip semiconductor	Build the legacy system MSA based

A various expansion solutions, collective intelligence SNS, collaboration, big data portals, Counseling KMS and Business Manual

Collabo - only Enterprise SNS

Cowork - Collaborative Messenger

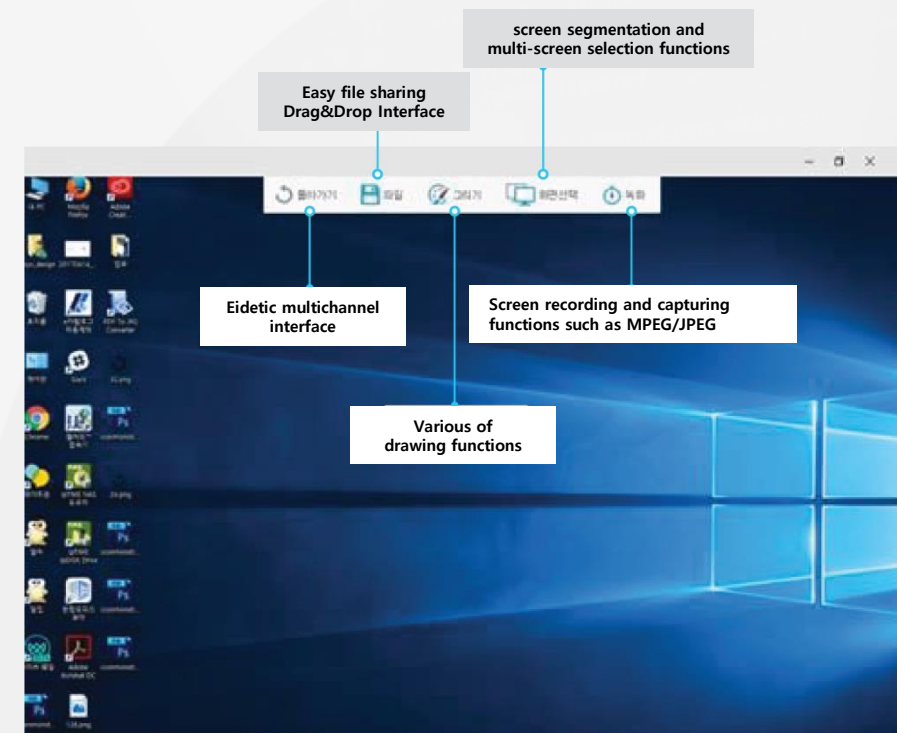

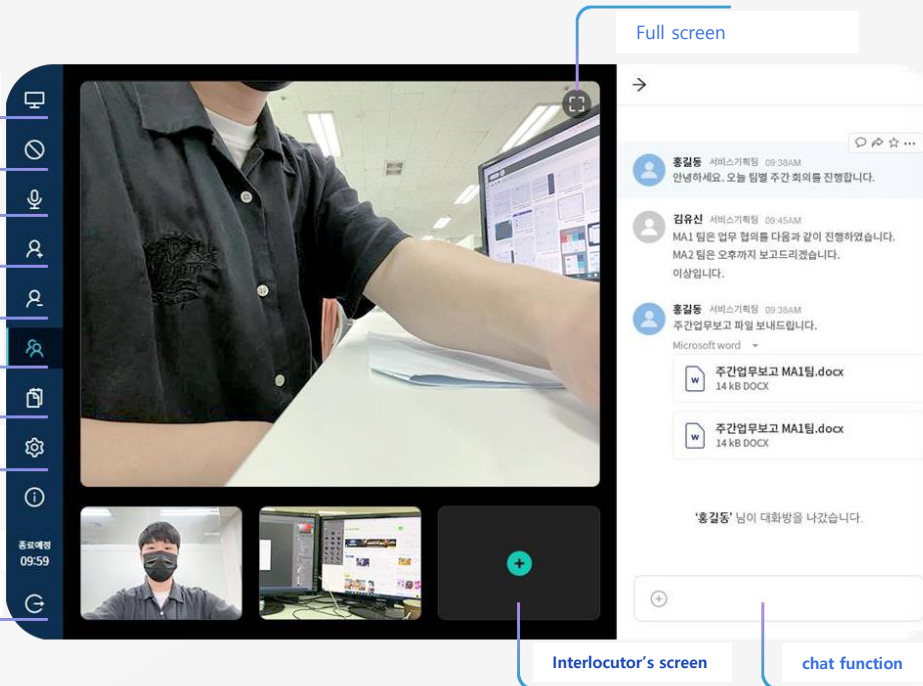

Helper - Counseling KMS and Manual

Big Data - Intelligent Big Data Portal

Major Development Cases

2022

- Mar
 - HYBE integrated website construction
 - Construction of SK Eco Plant EDP Service Portal and Development Environment
 - SK Rent-A-Car Year 2022 Smart Link Infra Primary reconstruction
- Feb
 - Construction of Shinhan Financial Group's website for external users of Data Dam
- Jan
